Subject: Update on pending complaint items

APR 30 2007
Ravalli County Commissioners

- 1) I checked with the Junk Vehicle Program manager. If a person is having more than four vehicles a year hauled via this program, they must have a wrecking facility license. This license is obtained from the manager and the county commissioners are asked if they approve. I'll check to see what the history is here on numbers of vehicles he's had hauled.
- 2) I have scheduled a meeting with the property owner – Mr. Olsen – for Monday. I've ask to go inside the shed and to look inside the burned out mobile. He has already agreed to this.
- 3) For the upcoming meeting on Monday about the other sawmill (Kirkland), Howard has asked me to be there. I will. I also visited the property with the permission of the owner, Harris Himes. Dwayne Kirkland is going to operate the firewood business and I have discussed any of our environmental issues. I can supply more info if you want, or I can hold it for the meeting. I also invited both Mr. Kirkland and Mr. Himes to the meeting.

Morgan.
